## **Emerson & Cuming Microwave Products Announces New Representative Firm, Microvolt Electronics**

Randolph, MA – July 15, 2010-- Emerson & Cuming Microwave Products has signed on Microvolt Electronics, which will serve as the exclusive sales rep to represent us in the Eastern Canadian Provinces of Ontario, Quebec, New Brunswick, Nova Scotia, Prince Edward Island, and Newfoundland & Labrador.

Microvolt Electronics is headed up by Pierre Tournay and has been in business serving the RF/Microwave market since 1991. According to Mike Plante, Vice President of Sales and Marketing, "*Microvolt Electronics will be a great addition to our rep network. They also represent a strong RF/microwave line card that includes Mini Circuits, a real advantage if you are selling microwave materials like we do.*"

Microvolt Electronics' main office is located at 1424, boul. Hymus Suite #6 Dorval, Quebec H9P 1J6. Phone: (514) 421-4164. URL [www.microvoltcanada.com](http://www.microvoltcanada.com)

Emerson & Cuming Microwave Products, Inc., an ISO 9001:2008 company is a world leader in the development and manufacturer of ECCOSORB<sup>®</sup>, microwave absorbing materials and anechoic chambers; ECCOSTOCK<sup>®</sup> dielectric materials for low loss RF and microwave applications; ECCOSHIELD<sup>®</sup> electrically conductive sheets, caulks, adhesives and coatings; and MetalTag<sup>™</sup>, metal mount RFID tags, for read on metal and liquid applications. Emerson & Cuming Microwave Products, maintains manufacturing facilities in Randolph, Massachusetts (US) and Westerlo, Belgium.

For over 60 years, the company has produced leading edge materials and engineered solutions for the wireless and satellite communications, military and aerospace, automotive, RFID and medical markets. For additional information, contact the company in North America at Tel: 1-800-650-5740 or 781-961-9600; in Europe at Tel: +32-(0) 14-56 25 00; or point internet browsers to [www.eccosorb.com](http://www.eccosorb.com).
